HAJJA HUDA

Drs. Hajja Huda is a member of the 'Ahl al Bayt' and comes from a long lineage of Sufi Masters, among the most famous, Sidi Abdul Salam (qs) from the Shadhili Sufi order.

From an early age, she started to memorize the Book of Love, The Holy Quran. Her spiritual training took place mainly in Egypt with Women Sufi masters who initiated her on Quranic healing techniques.

She is a medical physician who is directed towards Jungian Analysis where she practices transpersonal therapy. Together with her study of medicine, she also explored the world of healing plants on the spiritual and physical level.

With the transpersonal Jungian therapy combined with the ancient metaphysical healing techniques, she discovered an effective method, healing the body, mind and soul in a holistic way.

In Novembre 2020, she received the spiritual initiation by Sayyidatina Maryam, Saint Mary (as), for healing the Feminine on the spiritual level.

With the teachings received and having a spiritual connection with Mawlana Sheikh Nazim (qs) and Sheikh Abdullah Faiz Daghestani (qs), she received the permission for the spiritual work.

Her main focus is guiding women back to their Feminine essence and restoring the balance of their true nature on the path of spiritual awakening.
